Trusted by patients and families across Australian aged-care communities.

Clinical Cases

Real treatment outcomes from Zacc Kim's practice across nursing homes, retirement villages, and private homes.

Chronic Lower Back Pain

A 78-year-old resident at a Bundoora nursing home with a 12-year history of lumbar degeneration. After 8 acupuncture sessions over 4 weeks, pain scores reduced from 7/10 to 2/10 and mobility improved significantly.

Post-Stroke Rehabilitation

65-year-old male, 3 months post-stroke with right-side weakness. Acupuncture combined with Tui Na over 12 sessions improved grip strength and range of motion, facilitating faster return to daily activities.

Insomnia & Anxiety in Aged Care

An 82-year-old woman in a Doncaster retirement village experiencing severe sleep disruption. Herbal medicine combined with acupuncture normalised sleep patterns within 3 weeks without pharmaceutical interaction.

Knee Osteoarthritis

70-year-old retired nurse with bilateral knee OA, refusing surgical intervention. Moxibustion and acupuncture reduced morning stiffness by 60% over 6 weeks, allowing her to walk without a frame for the first time in two years.

Digestive Disorder Management

58-year-old with chronic IBS unresponsive to conventional treatments. A 10-week herbal medicine and dietary protocol reduced flare frequency from weekly to once monthly.

Palliative Support — Dementia Care

85-year-old dementia patient in an aged-care facility exhibiting agitation. Regular acupuncture sessions reduced behavioural symptoms and improved sleep quality over a 2-month period.

Shingles (Herpes Zoster) Pain

72-year-old with post-herpetic neuralgia resistant to topical treatment. Acupuncture targeting affected dermatomes, combined with cupping, reduced neuropathic pain from 8/10 to 3/10 within 5 weeks.

What Patients Are Saying

Experiences from patients and their families across our mobile practice.

Demo content — final testimonials to be confirmed by client before launch

Ms Kim, daughter of patient (77)

DEMO

Father's shoulder pain gone after 6 visits — he's back to morning walks

Sarah M. — Aged Care Coordinator, Bundoora

DEMO

Residents are calmer and sleeping better — families keep asking how to book more sessions

Mr Park (68), retired — home visit patient

DEMO

Twenty years of lower back pain — three months of treatment and I can sit through a family dinner again
